

Wednesday Challenge Form

Group Members: Even, Rouhin, and I

Problem Statement: We are judges for a Wednesday challenge that were tasked with Grading and running the challenge.

Approach: The first task we were given was to Receive the sketchup files from each group. The Second thing we did was distribute the Files to different groups. The Third thing that We did was collect the E's from all of the Groups. The last his that was tasked to us was Grading.

Solution: All the Wednesday challenges were Graded and submitted.

Lessons Learned: Being a judge is a lot of Work.
